EXPERIENCE

Flutter Developer — Freelance / Personal Projects

Role Summary:
Flutter mobile app developer using Flutter and GetX, handling the full app life cycle from design to deployment.

Responsibilities and Achievements:
- Built maintainable and scalable mobile apps using Flutter and GetX for state management and navigation.
- Integrated frontend with PHP and MySQL backend through secure RESTful APIs.
- Implemented Firebase services for authentication, messaging, and push notifications.
- Optimized app performance and user experience by reducing load time.
- Managed Git repositories, structured code for GitHub deployment, and handled environment separation.

Employee Self Service (ESS) — Project Owner / Lead Developer

Role Summary:
Led the development of a complete Employee Self Service for attendance, leaves, and employee data.

Responsibilities and Achievements:
- Designed and implemented location-based attendance (check-in/check-out).
- Developed workflows for leave requests, loans, and multi-level approvals.
- Created an admin web dashboard for attendance and user management.
- Solved data integration issues between mobile app, admin panel, and backend.

Multi-Vendor eCommerce App — Lead Mobile Developer

Role Summary:
Developed a multi-role eCommerce platform (customer, driver, admin) with integrated backend.

Responsibilities and Achievements:
- Implemented product listing, cart, order management, and admin panel.
- Built driver app for delivery tracking and order status updates.
- Added real-time notifications and handled order state transitions.
- Adapted features for different regions and external payment options.

School Management App — Mobile Developer

Role Summary:
Built a complete school management app for students, parents, teachers, and admin users.

Responsibilities and Achievements:
- Developed modules for attendance, homework, reports, and scheduling.
- Designed parent dashboards to track student progress and receive alerts.
- Managed access permissions and roles for multiple user types.

Sales Representative — King Mall / Happy Mall

Responsibilities and Achievements:
- Assisted customers and achieved daily sales targets.
- Organized product displays to improve shopping experience.
- Collaborated with the sales team on promotions and offers.
